Persistence Grading with Bonus

You can earn a maximum of 3 stars on each assignment in Spatial Vis.

- **3 Stars:** Complete the assignment **without using a Hint or Peek**. You may **Retry** as many times as you want. We encourage you to keep retrying until correct.
- **2 Stars:** If you use a **Hint** and complete the assignment, the maximum number of stars you can earn is 2. A **Hint** will show you the correct lines you have already sketched.
- **1 Star:** If you use a **Peek** and complete the assignment, the maximum number of stars you can earn is 1. A **Peek** will show you the correct lines, incorrect lines, and missing lines.

Required vs Not Required Assignments

Your grade is determined by the number of stars you earn on **Required Assignments** + **Bonus Stars**. You can view your **Required Assignments** in a Lesson by selecting the assignment menu (≡) in the top right corner.

The **Required Assignments** will be light in color and the **Not Required Assignments** will be grayed out. If all assignments are light then all assignments in that Lesson are **Required.**

Student Interface

Bonus Stars

A Bonus Star is earned by completing a **Not-Required** assignment in the same lesson **without using a Hint or Peek**.
*3 stars on a* *Not-Required* *assignment =* *1 Bonus Star* *in that Lesson*

Grading

Your grade is determined by the number of stars you earn on the **Required Assignments** + **Bonus Stars** divided by the total stars available on the **Required Assignments.** Your grade is capped at 100% and it is reflected on the Progress Screen.

Note: Your instructor may provide a different grade depending on given deadlines or customized grading for their classroom.

$$\frac{\text{Total Stars Earned on Required Assignments} + \text{Bonus Stars}}{\text{Total Stars Available on Required Assignments}} = \% \text{ Grade}$$

For Each Lesson
*grade is capped at 100%

Student Interface

Examples:

- If you use a Peek on a Required Assignment, thus earning 1 star on the assignment, you can do 2 Not-Required Assignments in the same lesson to earn back the stars.
- If you use a Hint on a Required assignment, thus earning 2 stars on the assignment, you can do 1 Not-Required assignment in the same lesson to earn back the missed star.

To the right, you can see the grade for Iso is 93%. The navy outer ring is complete which signifies all of the Required assignments have been completed. The inner light blue ring is not complete so there is still an opportunity to do Not Required assignments without using a Hint or Peek to earn Bonus Stars.
